

PROJECT HIGHLIGHTS:

- Site Engineering
- Drafting Services
- Project Management

VOISEY'S BAY EFFLUENT OPTIONS ANALYSIS STUDY

PROJECT DESCRIPTION:

Lyall's Drafting & Design Ltd was retained by Vale Inco NL to provide professional Services for the above mentioned project.

Vale Inco NL is responsible for the Voisey's Bay development which involves the construction and operation of a mine & concentrator in Voisey's Bay, Labrador, and processing facilities in Long Harbour, Newfoundland.

Lyall's Drafting & Design Ltd. was responsible for completing a review of the findings of an independent laboratory study and establish a necessary full scale treatment facility for both processes. The result of the study includes a description of the proposed plants complete with associated cost estimates.
